

Medicine Terms Dict (Chin-Eng) Privacy Policy

This privacy policy governs your use of the software application Medicine Terms Dict (Chin-Eng) (“Application”) for mobile devices that was created by The CJK Dictionary Institute, Inc. The application provides comprehensive coverage of information technology terminology, and includes both English-Chinese and Chinese-English dictionaries, giving access to approximately 519,000 technical terms.

By using this Application, you are consenting to our processing of your information as set forth in this Privacy Policy now and as amended by us.

What kind of data does the Application collect?

We use unique device identifiers to identify your device so that we can process and deliver your content. We do not collect any personally identifiable information (such as name, address, email or phone).

The text which a user submits for processing is generally retained until the content is delivered to the user's device. We might retain the text for a longer period with the goal of improving the service.

Does the Application access any third-party services?

No. This Application program does not use any third-party services.

Will I be notified should there be any changes to this privacy policy in the future?

This privacy policy was last updated on October 31, 2019. This policy may change from time to time. If we make any material changes to this policy, we will place a prominent notice in the Application.

How can I contact you with further questions?

If you have any questions or concerns about our privacy policies, please contact us:
